AUTHOR INDEX TO VOLUME 22

Ali, J. I., 191
Alonso-Uriate, R., 203
Arbatti, N. J., 173

Bancells, N., 15
Bandivdekar, A. H., 173, 217
Bongso, T. A., 185
Bontis, J., 77
Brignaschi, P., 41
Bustillo, M., 95

Clavert, A., 49
Codesal, J., 209
Cortes-Gallegos, V., 203
Coyotupa, J., 85
Cranz, C., 49
Crockford, P. M., 239
Cumming, D. C., 239
Czyba, J. C., 197

Davis, D. R., 131
de Queiroz, F., 251
Devasagayam, T. P. A., 217
Dodson, W. C., 29

Fedder, J., 67
Folliot, R., 251
Franco, J., 35
Franken, D., 61
Fujioka, H., 91, 137
Fujisawa, M., 149

Gajá-Rodríguez, O. V., 203
Gangnerau, M. N., 41
Garcia-Hjarles, M. A., 85
Garde, S. V., 223
Garnier, D. H., 251
Gonzales, G. F., 1, 35, 85
Gonzáles-Santos, M. R., 203
Gopalkrishnan, K., 173
Grimes, E. M., 191
Gu, Y., 131
Guerin, J. F., 197
Guerra-Garcia, R., 35, 85

Habert, R., 41
Haney, A. F., 29
Hansen, L. G., 67
Herkner, K., 143
Hjort, T., 67

Idaomar, M., 197

Jégou, B., 251

Kadam, M. S., 173
Kamidono, S., 149
Kantcheva, L., 103
Katayama, T., 245
Kazama, T., 245
Keltimlidis, K., 77
Kercret, H., 251
Kiyohara, H., 137, 161, 167
Koh, E., 91, 137, 161, 167
Kojima, K., 149
Koll-Back, M. H., 49
Kondoh, N., 91, 137, 161, 167
Kruger, T. F., 55, 227
Kuku, S. F., 233

Lim, M. N., 185
Lin, Y. C., 131
Lischka, A., 143
Lombard, C. J., 227
Lornage, J., 197

Wong, P. C., 185

Yoshida, S., 149

SUBJECT INDEX TO VOLUME 22

Acrosomal hypoplasia, transient, 95
Age and serum inhibin and serum FSH levels, 35
Androgen insensitivity, in male infant excretion analysis, 143
Anticancer drugs, reproductive effects of, 251
Artificial insemination, 227
  and sperm selection, 15
Aspermia, pituitary testing and, 239
Asthenozoospermia, 197
Azoospermia, 233

Biochemical changes in testicular varicocele, 149
Blood serotonin and infertility, 77
Bromocryptine, pituitary testing with, 239

Cervical mucus penetration, 29, 61
Complement-dependent cytotoxicity test, 67
Cryptorchidism:
  and DNA synthesis, 91
  pubertal, 137
  and reduced level of sex-specific antigen on lymphocytes, 67
  and RNA synthesis, 91
Cyclophosphamide, reproductive effects of, 251
Cytophotometric DNA quantification, 209

DNA synthesis:
  cytophotometric quantification of, 209
  effectiveness of hCG-hMG treatment for, 167
  impairment of in pubertal cryptorchidism, 137
  in postpubertal cryptorchidism, 91
  in pubertal cryptorchidism, 137
  responsiveness of gonadotropins to, 161
  in subfertile testis, 167

Epidymis and effects of cyclophosphamide, 251
17β-estradiol, stimulation of motility and energy metabolism of spermatozoa by, 197

Fertilization, effect of sperm motility on, 185
Follicle stimulating hormone, elevated levels of, 239

Gamete intrafallopian tube transfer, 227

hMG-hCG treatment, effectiveness of, 167
Human chorionic gonadotropin, responsiveness of DNA synthesis to, 161
Human menopausal gonadotropin, responsiveness of DNA synthesis to, 161
H-Y antigen, reduced level on lymphocytes, 67
Hyperprolactinemia, 239

Immunobead test, 55, 227
Immunocytochemistry, 223
In vitro fertilization, 185
Infertility:
  and acrosomal hypoplasia, 95
  and blood serotonin, 77
  and cyclophosphamide, 251
  and effectiveness of hMG-hCG treatment, 167
  and LDH isoenzymes, 77
  and semen quality, 61
  and testicular ultrastructure, 103
Inhibin, prostatic, 223
  suppression of lipid peroxidation in spermatozoa by, 217

Jaundice and changes in LDH-X, 131

Klinefelter's syndrome and testosterone replacement therapy, 245

Lactate dehydrogenase-X, changes in jaundiced rats, 131
Late steroidogenic lesions, absence of in fetal rat testis, 41
LDH isoenzymes in infertile men's semen, 77
Leydig cells:
  and effects of cyclophosphamide, 251
  transplantation and recovery of, 123
Lipid peroxidation, suppression of in spermatozoa, 217

Micropenis and androgen insensitivity, 143
Morphology, sperm, 191
Motility, sperm, 185
  stimulation of by 17β-estradiol, 197

Oligozoospermia, 233

Papanicolaou staining, 191
Pituitary hormones and sleep deprivation, 203

Pituitary testing and aspermia, 239
Prolactin release, 173
Prostate volume and testosterone replacement therapy, 245
Prostatic inhibin, suppression of lipid peroxidation in spermatozoa by, 217
Prostatic inhibin peptide, age-related changes in, 223

RNA synthesis by postpubertal undescended testis, 91

Semen, LDH isoenzymes in, 77
Semen quality and infertility, 61
Semen smears, stained and unstained, 191
Seminal plasma, 1
  biochemistry of, 49
  isolation of prolactin-regulating factor from, 173
  lipid composition of, 49
Seminal vesicle volume and testosterone replacement therapy, 245
Seminal vesicles, functional structure and ultrastructure of, 1
Sertoli cells and effects of cyclophosphamide, 251
Serum inhibin, inverse correlation of with serum FSH, 35
Serum testosterone:
  and blood serotonin, 77
  relation to serum FSH and serum inhibin, 35
Sex-specific antigen, reduced level on lymphocytes, 67
Sleep disturbance and hormonal responses, 203
Sperm antibodies:
  effect of rapid dilution of semen on, 227
  effect of sperm washing and swim-up on, 55
  and infertility, 61
Sperm cervical mucus contact test, 55, 227
Sperm count and blood serotonin levels, 77
Sperm morphology, 191
Sperm motility:
  and blood serotonin, 77
  effect of on in vitro fertilization, 185
Sperm selection techniques, 15
Spermatogonia, proliferative activity of, 209
Spermatozoa:
  and effects of cyclophosphamide, 251
  stimulation of motility and energy metabolism of by 17β-estradiol, 197
  suppression of lipid peroxidation in, 217
Steroid excretion, 143
Steroid hormones and sleep deprivation, 203

Testicular DNA synthesis, responsiveness of to gonadotropins, 161
Testicular ultrastructure, 103
Testicular varicocele, biochemical changes in, 149
Testis, maturation of in jaundiced rats, 131
Testosterone replacement therapy and Klinefelter's syndrome, 245
Transplantation of Leydig cells, 123

Ultrasonography, measurement of prostate/seminal vesicle volume by, 245
Ultrastructure:
  of seminal vesicles, 1
  of testis, 103
Urease-ELISA, 67

Varicocele, testicular, 149
